**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am writing in support of broadband. I have previously had ATT&T and Comcast and currently have Sonic. I truly believe that competition is important to keep costs down for the average consumer. Comcast's increasing costs convinced me that I needed to switch to less costly alternatives. The fact that Sonic can provide me with faster internet, landline telephone service ,no internet data limits and better customer service at a much cheaper cost should incentivize competitors to do a better job to stay competitive in the market. Eliminating broadband an the competition is not the answer. Sonic has built its reputation on solid performance and has a a strong word of mouth referral following.
